Details

Description

The Polish company is offering wide range of fully biodegradable tableware and cutlery produced from natural and edible wheat bran. Offered tableware is suitable for serving hot and cold dishes. They can be used in ovens or microwave ovens.

Offered products are robust and stable, they can comfortably and safely use at home, in the bar or in the restaurant. Current offer includes a full range of disposable and biodegradable wheat bran tableware products: 28cm, 24cm, 20cm diameter plates; 20cm diameter bowl; 24x16cm oval dish.

Distribution services agreement with distributors from Germany, Sweden, Norway and Finland is sought.

Advantages and Innovations

Production process of the offered products is clean and environmentally friendly. Manufacturing of offered tableware is based on natural raw materials – wheat bran and small amounts of water. Further process is based on high pressure and high temperature.

10,000 units of plates, bowls or trays is produced from 1 ton of pure, edible wheat bran. Offered products are fully biodegradable in just 30 days.

Stage of Development

Already on the market
